Dear Sir:

) REQUEST TO ENTER FORMAL AND
) SUBSTITUTE DRAWING SHEETS

Enclosed for filing with the above identified application are 14 sheets of formal, inked drawings illustrating Figs. 1-8B of the application. In reference to the formal drawing for Fig. 2, a substitute sheet is provided for entry. In particular, for Fig. 2 included herein is:

- (a) a copy of the original drawing for Fig. 2 of the above identified patent application with requested deletions crossed out in red;
- (b) a copy of the an amended version of Fig. 2 with additions in red;
- (c) the formal drawing for Fig. 2 which is a black inked version of the amended version of Fig. 2 for use as substitute sheet.

Please replace the original Fig. 2 in the above-identified patent application with the black inked substitute sheet herein. The substitute sheet for Fig. 2 corrects discrepancies between labels referred to in the Detailed Description and those in Fig. 2. In particular, pages 33-34 reference

display "line 300" of the display area 208, and additionally describe the display line 300 as having, e.g., the "MOST RECENT BET" information therein (e.g., page 33, lines 14-17). However, in Fig. 2, the corresponding display line is labeled 302. Thus, the substitute sheet for Fig. 2 changes the labeling on this display to 300. Further, in the specification, starting at page 24, line 19 and continuing through page 25, line 22, a card reader having a slot 220 is referenced in describing Fig. 2. However, the label 220 is also used in the Detailed Description and Fig. 2 for labeling an "activate" button. Thus, to distinguish the slot 220 from the button 220, the labeling on the slot has been changed to 221 on the Fig. 2 substitute sheet. Note that in a separate paper requesting a preliminary amendment to the present application, it is requested that the labeling of the slot in the Detailed Description text be changed to 221, to conform to this substitute sheet.

Respectfully submitted,

SHERIDAN ROSS P.C.
